3 Using LaTeX to make documents that meet NREL's requirements

3.1 Floats

Floats are images, tables or other pieces of the document that are free to move to the best place in the document for them. The two most common floats are the tabular environment (for tables) and the figure environment for figures.

3.1.1 Tables

Use the `tabular` environment to produce basic tables. Table 1 is produced using this code:

```
\begin{table}[%h]
\centering
\caption{An example table.}\label{tab:widgets}
\begin{tabular}{lr}
Item & Quantity \\
\hline
Widgets & 42 \\
Gadgets & 13 \\
\end{tabular}
\end{table}
```

Table 1. An example table.

Item	Quantity
Widgets	42
Gadgets	13
